

UTAH STATE UNIVERSITY  
 UTAH WATER RESEARCH LABORATORY  
 LOGAN, UTAH 84322-8200

Tests by W. Rahmeyer  
 Febr. 7, 1991

36°  
 Job No: V-3107

Meter Size : 36-inch Pipe I.D. (in) : 36.0000  
 Tested For : TRI FLO Throat I.D. (in) : 15.8880  
 Test Fluid : Water 45 deg F Beta : 0.4413  
 Flow range 8314 gpm to 19635 gpm

$$\begin{aligned} \text{beta} &= \text{throat I.D.} / \text{pipe I.D.} & Q_{\text{gpm}} &= Q_{\text{cfs}} \times 448.831 \\ \text{Q}_{\text{cfs}} &= A_0 C \sqrt{2g \Delta H \text{ ft.}} / \sqrt{C_d \text{ SQRT}(1 - \beta^4)} \\ Q_{\text{gpm}} &= C_d \sqrt{\Delta H \text{ in.} / S.G. \text{ of fluid}} \\ C_d &= 1039.765 A_0 C / \sqrt{1 - \beta^4} \end{aligned}$$
